"Love You Deadly"

Visit "[Love You Deadly](#)" on MotoLyrics.com

I would never trade you, you're always on my mind
This murderous web connects our souls
Forever we're entwined
Stronger than death
This passion doesn't end in the grave
I love you deadly, I love you deadly
'Till the end of time

I would kill for you, commit any crime
Drag my heart through the toughest terrain
To hell and back, the highest mountain I would climb
As true lovers sharing good, bad, happiness and pain

Our love is so hot, it makes the devil sweat
This poisonous condition was meant to be
Since the first time we ever met
Stronger than life, this devotion forever will be
I love you deadly, I love you deadly,
'Till the end of time

I love you deadly, I love you deadly,
'Till the end of time
