"Monster Bait"

Cute innocent without a clue
You should know better than to pick up that phone
I thought that everybody knew,
to never ever open doors when they're home alone

There's no escape now it's too late
You're a victim, nothing but monsterbait
It's time for you to face your fate
Zombie buffet, nothing but serial killer prey

No matter how loud you scream,
Expect no help, nobody is gonna hear you anyway
Time for you to redeem.
Stop crying, get on your knees and pray

There's no escape now it's too late
You're a victim, nothing but monsterbait
It's time for you to face your fate
Zombie buffet, nothing but serial killer prey
