I dig them shapes round and soft  
I like them big or small  
Spicy, sweet, red, and hot  
Petite or long and tall  
Knock knock knock please let me in  
I wanna hear your pleasure screams  
I'll possess your mind and haunt you in your wet  
dreams

I'm gonna rock you real good every day  
In any way that comes to mind  
Rock you hard all night long  
Soft, upside down and from behind

In my world, is where you want to be  
I'll make your heart swirl, I'll make you beg and plea  
You can't resist girl, I'll make you mine to be  
Welcome to my world of Nekrotastic Extasy

24/7 They are everywhere, erotic stimuli  
Tempting, dirty, bad, and tough obscene or cute and  
shy  
Rock rock rock I'll take em all, addicted to woman kind  
Open up baby show me what you got  
Yeah that's right you friggen blow my mind

I'm gonna rock you real good every day  
In any way that comes to mind  
Rock you deep all night long  
Slow, upside down and from behind

In my world, is where you want to be  
I'll make your heart swirl, I'll make you beg and plea  
You can't resist girl, I'll make you mine to be  
Welcome to my world of Nekrotastic Extasy
