riding down the road of life - he's driving fast

the wind is blowing in his face, how long will he last
spending all his money on beer, no women in sight

looking for some action, again he ends up in a fight
ride danny ride - drinking beer and having fun

ride danny ride - the cops are coming, run run run run
ride danny ride - ride danny ride

ride danny ride - ride danny ride
100 miles an hour - on his bike he feels so well

trees are passing by down that highway straight to hell
every week he finds himself mixed up in a new
romance

cheating, stealing, lying whenever he gets the chance
ride danny ride - drinking beer and having fun

ride danny ride - got me, got me run run run run

ride danny ride - ride danny ride

ride danny ride - ride danny ride

ride danny ride - drinking beer and having fun...

100 miles an hour...
