"Way Down To Hell"

Wake up in the dark, dark night
Fear is growing deep inside
Though I know the way
Still I am gonna pray
Way down to hell

Demon teds and Nekroman
Are hunting the Kling Klong Klan
Well, there is nothing wrong
Still I'm rolling down
Way down to hell

Everybody seems to want me back
But I'm following my track
Way down to hell

Shivering like falling gods
Trying to stand against all odds
Though I know the way
Still I am gonna pray
Way down to hell

Bleeding from wounded eye
Seeing this I can't deny
Well, there is nothing wrong
Still I'm rolling down
Way down to hell
