{Chorus}

Who killed the cheerleader
You did, you did, oh no
It wasn't me at all
Who raped the prom queen
He did, he did, yeah right
And she was having a ball

I asked her out
She laughed and said, "No way"
Told me she would
Never date such a geek
For that remark
I say she's gonna pay
I hate when people call me a freak

She's kissing with the football star
Late at night in his car, yeah
I was driven by an unknown force
Feeling no remorse

{Chorus}

I asked her for a dance
She said, "Drop dead"
Advised me to go join the other nerds
Now I had it with that blond little pet
With everybody else but me she flirts

I hid in the locker room, watching
When her hair, she grooms oh yeah
Driven by an unknown force
Feeling no remorse

{Chorus}
