

Little Comets

"Runabout"

Visit "[Runabout](#)" on MotoLyrics.com

Rushing out the door at midnight
I found myself breathing fire
There is just one way to cure my heart from you
Cause I can't let go
I'm still loving you so

Go run about the streets like it's a race
Go run About
Run About
With the perfect plan you play with what you can and
run
About

You think you've got it all set up now
This fever caught me in a rush
There's just one way to cure my heart from you
'Cause I can let go
I'm still loving you so
Go run about the streets like it's a race
Go run about
Run about
With a perfect plan you play with what you can
