Ha! Yeah. It's Lucas B. Ohh! -Hahaha-

I don't wait in all those stupid lines (stupid lines)
When I get down it's only straight up VIP
Drinks on me, sex is free tonight (free tonight)
The bass is bumping, got me burning up inside

We loose control, in the spot light, because we're riders
of the night
No self control, we starting fights, because we're riders
of the night

Get up and let's take a chance
Get down and lets dirty dance (dance)
Black out when they kill the light
Riders of the night
Get up and let's take a shot
Get down cause it's getting hot
Black out when they kill the light
Riders of the night

I don't work no stupid nine to five (nine to five)
I ain't got shit yeah, I'm struggling to survive
But life's a party and I'm here to stay (stay)
I don't want your future cause I'm living for today

We loose control, in the spot light, because we're riders
of the night
No self control, we starting fights, because we're riders
of the night

Get up and lets take a chance
Get down and lets dirty dance (dance)
Black out when they kill the light
Riders of the night
Get up and let's take a shot
Get down cause it's getting hot
Black out when they kill the light
Riders of the night

I don't need to give a reason, baby (ah)

I'm here to party and that's all I have to say (yeah)
So lets get dirty in the spotlight, all night
We run this shit cause we're riders of the night, yeah,
yeah!

Ohhh! Yeah and we bring the heat all night long, it
don't stop, stop, stop, no!

Get up and lets take a chance
Get down and lets dirty dance (dance)
Black out when they kill the light
Riders of the night
Get up and let's take a shot
Get down cause it's getting hot
Black out when they kill the light
Riders of the night

We lose control, yeah!
Because we're riders of the night!

Get up and let's take a shot
Get down cause it's getting hot
Black out when they kill the light
Riders of the night

-Hahaha-
