It's not what you say  
It's the way you say it  
It's not about the game  
It's the way you play it  
You might think what I say  
Sounds a bit cliché  
But in the end  
In your mind you'll replay it

Should I be waiting  
For the grass to be greener  
On the other side  
Be sitting at home  
Twiddling my thumbs  
When I can't decide  
Do I run my show  
Or is it a compromise  
Is it my way  
Or the highway  
When others think otherwise  
I love surprises but  
I never improvise  
I think I'm grounded but  
My strings aren't really tied  
The showbiz roller coaster  
Has taken me for a ride  
The highs  
The lows  
This is why I stride

It's not what you say  
It's the way you say it  
It's not about the game  
It's the way you play it  
You might think what I say  
Sounds a bit cliché  
But in the end  
In your mind you'll replay it
