"Food in the house"

Visit "[Food in the house](#)" on MotoLyrics.com

We're gonna get some food in the house tonight
Get some food in the house tonight
We're gonna get some food in the house tonight
Get some food in the house

For to starve is to hate is to kill is to sin
Better love's on your plate get your fill and dig in

We're gonna get some food in the house tonight
Get some food in the house tonight
We're gonna get some food in the house tonight
Get some food in the house

Hell is strife and confusion be frightened or fine
Well if life's an illusion we might as well dine

We're gonna get some food in the house tonight
Get some food in the house tonight
We're gonna get some food in the house tonight
Get some food in the house

We're gonna get some food on the table tonight
Get some food on the table tonight
We're gonna get some food on the table tonight
Get some food in the house

Well now we're feeling full in the house tonight
Feeling full in the house tonight
Oh yeah we're feeling full in the house tonight
Feeling full in the house

We're gonna go to sleep in the house tonight
Go to sleep in the house tonight
We're gonna go to sleep in the house tonight
Go to sleep in the house
