Have you heard it tonight  
Have you cured your addiction  
They're both damaged and white  
Wanna cure your affliction  
Soybeans help women with menopause symptoms  
But there it is on tv, tv  
It's  
John John's in the house  
He draws a crowd  
He's got his medals gleamin  
John John's got the move  
He's got the groove  
He's got me soothed and screamin  
John John's got the brawn  
He's taken over my lawn  
Broke my blender  
Ralphie is the one  
But I must live with John John till november

Do you feel like a liar  
Do you feel like a hypocrite  
You're torn by desire  
Wanna go to both benefits  
Run for your life  
It's the heat of july  
And then there it is on tv, tv  
It's  
John John's in the house  
He's getting down  
He's tried his hand at bakin  
John John's got the glow  
He stole the show  
His hand is sore from shakin  
John John plays the part  
He's chowing on tofutti  
Dent my fender  
Ralphie has my heart  
But I must live with John John till november

I hate to watch debates  
You cut him out

You cut him out  
And in the florida race  
You cut them out  
You cut them out  
But  
John John's in the house  
He's spouting proust  
He's got good eloqution  
John John's walking tall  
He's got the drawl  
Won't be no executions  
John John looks above  
He's talking of being returned to sender  
Ralph's the one I love  
But I must live with John John till november
