well i cant remember what was her name
i got fifteen shots bourbon in my vein
twine me baby ah you doin' fine
Squall my name honey an' i make you mine
Squirm on me hottie i know you'll do it right

Snap me baby, what are you waitin' for?
Please dont stop it, i want more more more, more!
Gal i like your movin'
Please dont stop your love!
well i cant remember what was her name
i feel a big damn bomb tickin' in my brain
My baby's gone, an' i feel so blue
where she can be i dont have a clue
But i dont worry, now i do what i want

Snap me baby what are you waitin for?
Please dont stop it, i want more more more, more!
if you wanna left me
Please wont you come back no more!
