It's hard being a prophet  
in your own little town  
people are just waiting,  
for you to be done  
but I'm just getting started  
so hold your breath

lalala...

It's great that you've got your mind set  
but not if it means that i'm it  
I wanna thank you for listening  
but I haven't said nothing yet  
cause I'm just getting started  
so hold your breath

lalala...

Run, run til your feet bleed  
and love til your heart stops  
Run, run til your feet bleed  
And love til your heart stops to beat.

Til your heart Stops.  
Til your heart Stops.  
Til your heart Stops....
