Oh shake me down  
I'm the son of a never ending doubt  
Love please hang around  
Cause I'm the kind of wreck you read about  
And I'm sinking now

I finally know it's about  
Let's disassemble  
Does it feel like a half blown train  
These things are better than me  
Or resemble  
Imagine you and me  
Something's holding you back, yeah  
It's done holding you back, yeah

Nothing is sacred, nothing is safe  
Every minute's an honest mistake  
Limit myself to the plans that we make  
And the days á<sup>1</sup>—ass us by as we wait  
Don't wait  
Don't wait

I finally know it's about  
Let's disassemble  
Does it feel like a half blown train  
These things are better than me  
Or resemble  
Imagine you and me  
Something's holding you back, yeah  
It's done holding you back, yeah

Don't wait  
Don't wait

I finally know it's about  
Let's disassemble  
Does it feel like a half blown train  
These things are better than me  
Or resemble  
Imagine you and me  
It's getting harder to breathe

Oh it's getting harder to breathe

I finally know it's about

Let's disassemble

Does it feel like a half blown train

These things are better than me

Or resemble

Imagine you and me

It's getting harder to breathe

Oh it's getting harder to breathe
