Is this a bad time?
For a while there you were fine.
Turn out the lights on a dark night of the mind.
Are you afraid to be the weak link in the chain?

Oh, it's so hard to gauge;
Are you the savior or the plague?
Yeah

Comfort me.
You keep your distance like a treasure from the sea.
Bury me and mark an 'X' so you can come back when
you need.
It's the wrong time for a bad sign,
But the answers seem so far away I keep my arms
pinned to my side.

Hide away,
They don't love you like they say.
There's no answers to the questions they don't care to
ask you anyway.

Hide away,
They don't love you like they say.
There's no answers to the questions they don't care.

Is this how it goes,
When there's nothing left to show?
Any open doors are just back doors swinging close.
I've always known that I can't fit your perfect bones,
But it's days like these that I feel so small, I can barely
fit my own.

Hide away,
They don't love you like they say.
There's no answers to the questions they don't care to
ask you anyway.

Hide away,
They don't love you like they say.
There's no answers to the questions they don't care.

If I can't drown these lows alone,
Will you be there to fill my pockets up with stones?
If your shores can't see to keep me close,
Then let me go.
Just let me go.

Hide away,
They don't love you like they say.
There's no answers to the questions they don't care to
ask you anyway.

Hide away,
They don't love you like they say.
There's no answers to the questions they don't care.
