

Malcolm Levett "Machines"

Visit "[Machines](#)" on MotoLyrics.com

Your death was yesterday, they loved to destroy.
I killed the Sun today, we'll never see tomorrow.
Watch as I disappear, there's nothing left for you.
Forever I'll treat my fear, we'll never see tomorrow.

A cure for this disease. We are just machines.
A cure for this disease. We are just machines.

Your death was yesterday, they loved to destroy.
I killed the Sun today, we'll never see tomorrow.
Watch as I disappear, there's nothing left for you.
Forever I'll treat my fear, we'll never see tomorrow.

A cure for this disease. We are just machines.
A cure for this disease. We are just machines.

The sky begins to crack, I wait for day to come.
I pray I find my place, I've been searching for the Sun.
One day you'll wake up and look to see I've gone.
Do nothing, sit and wait, you've slept way too damn
long.

A cure for this disease. We are just machines.
A cure for this disease. We are just machines.
