Do I

Do I love you baby

Yeah Yeah Yeah Yeah

More than ever

I remember all I wanted in a lover

Was just a pretty face but all I found were hearts of
stone

Spent a lifetime

On the road to nowhere till I found my way back home

You gave me shelter from the cold and the rain - whoa
and

Now I know pleasure where

There used to be pain

Do I

Do I love you baby

Yeah yeah yeah yeah

More than ever

Do I do I need you baby

Yeah yeah yeah yeah

More than ever

You saved me with warmth and understanding

You're everything that I could ever want

And after so long

We're standing here together

And forever we'll live on

In time most other loves just wither and fade

I tell ya

Ours just gets stronger each and every day

Do I

Do I love you baby, baby

Yeah yeah yeah yeah

More than ever

Do I do I need you baby

Yeah yeah yeah yeah

More than ever

Hey come over here for a second

I got something I wanna say

Even though I may not think to tell you every day

Oooh I'm so happy you're still mine

Oh, you came along with a love so sweet, took me by

surprise
Knocked me off my feet
You still send shivers up and down my spine
Oh I gotta be the luckiest man alive
Do I
Do I love you baby
Yeah yeah yeah yeah
More than ever
Do I do I need you baby
Yeah yeah yeah yeah
More than ever
You saved me with warmth and understanding
You're everything that I could ever want
And after so long
We're standing here together
And forever we'll live on
In time most other loves just wither and fade
I tell ya
Ours just gets stronger each and every day
Do I
Do I love you baby, baby
Yeah yeah yeah yeah
More than ever
Do I do I need you baby
Yeah yeah yeah yeah
More than ever
Hey come over here for a second
I got something I wanna say
Even though I may not think to tell you every day
Oooh I'm so happy you're still mine
Oh, you came along with a love so sweet, took me by
surprise
Knocked me off my feet
You still send shivers up and down my spine
Oh I gotta be the luckiest man alive
