Took a bite of my memories
The love I craved always starving me
And what I'd taste turned to bittersweet

Ooh-on and on I searched so long
A flag of white I flew
'till I found you

You never stop giving me the hunger-never gonna fade
away
Oh-i never fought the spell you put me under
Now I'll never be the same
Desire burning like a flame
And my heart'll never change
You'll never stop giving me the hunger

Years alone eat you up inside (it eats you up inside)
Cause time's no feast for an appetite
You hear stories told of the hearts served cold on the
plate of life (on and on and on...)
Ooh-on and on delirium
Approached as I withdrew
'till I found you

You never stop giving me the hunger-never gonna fade
away
Oh-i never fought the spell you put me under
Now I'll never be the same
Desire burning like a flame
And my heart'll never change
You'll never stop giving me the hunger
Ooh-on and on you are my one

Eternal rendezvous...
Repeat chorus/out
