I'm your whisper in the wind  
I will kiss every inch of your tender skin  
Sending chills up and down your spine  
That's because now you are mine

I'll come to you in your dreams  
Close to scare your fears  
Love will be on the way  
Bring sparkles in your eyes  
See the desire between you and I

Fantasy, only love can save me now  
Fantasy, let me be your fantasy  
Supernatural when the superstar kiss  
Once upon a time our love was bliss  
Fantasy, let me be your fantasy, fantasy

This is my battle, I'm already in heaven  
I am a goddess  
This is a dream, my love is immortal  
This fight, I'm unstoppable

I'll come to you in your dreams  
Close to scare your fears  
Love will be on the way  
Bring sparkles in your eyes  
See the desire between you and I

Fantasy, only love can save me now  
Fantasy, let me be your fantasy  
Supernatural when the superstar kiss  
Once upon a time our love was bliss  
Fantasy, let me be your fantasy, fantasy

Fantasy, only love can save me now  
Fantasy, let me be your fantasy  
Supernatural when the superstar kiss  
Once upon a time our love was bliss  
Fantasy, let me be your fantasy, fantasy
