Sky has fallen  
And it's knocked me down  
Clouds just crush me  
Down to the ground  
Cloaked in thick air  
I can't be found  
Clouds have sunk  
They're like a shroud

I had no hope then  
Can't help me up  
The can was smoking  
Can't help me up  
The skin was broken  
Can't help me up  
No words were spoken  
Can't help me up

Storm survivor  
Defy the clouds  
Pain may soak me  
But I won't drown  
Phoenix Rises  
From bloodless ground

Cause I've fallen  
I've fallen  
I've fallen

Down  
Fallen down  
I fell down  
Man I got back up

Sky has fallen  
Phoenix rises
