Go away I must get you out of my way  
We tried but we failed  
Life is illusive  
Does it end somewhere?  
I'm asking you  
Again  
Who do you think we are?  
You're messing with my world  
But I'll set myself free with my pen-knife

Your soul  
The hotbed of evil, begins that hatch  
The lords of chaos  
Jack-o-lantern  
Moral insanity  
Look what you produced

Dead children of tomorrow  
Surrounded by the dark  
I'll prepare them for yet another war  
You know  
I can smell their hatred

The sanctuary  
Of my mind  
Keeps me senseless to everyone's feelings  
I'm not your chariot  
I'm not your freakin' slave  
Don't play games with me  
Anymore

You're already dead man  
I warn you one more time  
Try me  
Find out!

Forget about the future, forget about the past  
I know their lies  
Qualified to suicide  
That's the mirror of our times

Watch your back!

Questions and answers about the mystery of death  
You will find out in another man  
Sufferings is like your stench  
It can allways find you
