Take a breath  
Touch the frozen mouth of the undead

Discover the morbid mystery of ancient daemons  
At last, it becomes a reality

I've found in myself  
Death lives in everyone  
Show me the way  
The lost world will be yours

Demon Tailor from Chalons  
Will show you the path  
Feed the eye of the storm  
My darkest friend

Let shadows wake my nightmares  
So they can haunt me in the moonlight  
Let the dusk ease my pain  
For I shall not sleep again

I don't know anything  
I've killed my soul to flee from myself  
That's the only way  
Beware and try to hide against me

Wolves are impatient tonight  
Their howling echoes in my stomach  
Stimulating my transformation  
So let the world fall

Night's falling  
I'm starving  
I'm searching the nearby forests now

My senses are getting sharper

The full moon initiates my metamorphosis

I don't know anything  
I lost myself but I have you  
My gift is for the chosen ones

It'll make us leaders of the pack

Curse me!

The beast from the pagan past

Was born from my genotype

Peter Stube put on his wolfish belt

Found your trace

In the snow
