Freedom of choices hurts somebody dreams  
In the night I started my day  
So sadistical  
Moving through mirrors and pictures  
I saw they laughing at my...  
I feel the dangerous  
Allure my beast  
So sadistical  
All the fevers  
Are on your list  
Special gift, would you like?  
Poison  
Blessing  
Strange kind of hate  
Temptation  
Vengeance  
War for a while  
I'm coming down  
I don't know why  
Take my hand or...  
Save yourself and run  
Listening  
Whispering  
I feel the voice of unknown  
I'm the one  
Only son  
Your head will be my hole  
Liberty  
Dignity  
Are verses from my womb  
You're the one  
I've waited for  
Beckon the call
