Dignity is over  
World peace is a lie  
Cause there is no peace at home  
Is confidence trustworthy?

Sign of the Times

A world full of irrational sex  
A world of anger  
Cannot be called a world in peace  
Peace is a state of mind

Sign of the Times

The shots who killed Kennedy, Luther, Lennon, Rabin  
Are killing me  
How can I understand?  
How can you feel under pressure?  
Information highway  
Third world primitive art  
The homeless  
Two thousand years are knocking at your door

Sign of the Times
