I'm having trouble trying to sleep tonight
Cause I can't get you out of my mind
And I want you to know just what I mean
If you only knew just how you make me feel when your
around
Then you'd realize what you do to me

Is it wrong for me to want to kiss you like you've never
been kissed before
Cause sometimes I feel I can't resist you even though
your with him
I just want you to know
I just want you to know that
I just want you to know

Girl you break me down whenever your around!
And everything feels so right whenever your around

Remember when we watched the stars
Shoot across in the Texas sky
And we made a wish on everyone that passed our way
Then you asked me what I wished for
But I told you --- I couldn't tell
Cause inside I am worried you don't feel the same

Is it wrong for me to want to kiss you like you've never
been kissed before
Cause sometimes I feel I can't resist you even though
your with him

I just want you to know
I just want you to know that
I just want you to know right now

Girl you break me down whenever your around
And everything feels so right whenever your around
I Just wish you knew that I want to be with you
I Just wish you knew that I want to be with you

Everynight your in my dreams
Everynight your in my dreams
Everynight your in my dreams again and again

Everynight your in my dreams again and again
And I question myself why do you want him GO!!!

Girl you break me down whenever your around!
And everything feels so right whenever your around

And maybe someday you will see that
I wanted to be more than just a friend to you
I Just wish you knew that I want to be with you
I Just wish you knew that I want to be with you
