Get up, Iâ€™m ready baby  
For a little more of your feeling  
Un-tuck your shirt baby  
Are you ready? Are you ready?

I know youâ€™re not related  
Oh but I donâ€™t care cause Iâ€™m feeling it  
I know itâ€™s really crazy  
But I want it, I do want it

I canâ€™t stand to be with anyone else  
Canâ€™t stand it, canâ€™t stand it

To make a little love to you is all I ever really needed  
And I donâ€™t really wanna these girls, they only bring  
me down  
I wanna look into your eyes and find a way to stay  
forever  
Whatever, cause I canâ€™t stand to be with anyone else

Get up, get out now baby  
Youâ€™re not the one, Iâ€™m not feeling it  
But donâ€™t swing away, persuade me  
Are you ready? Are you ready?

To pull it through baby  
I miss the love, I miss thinking it  
I miss lying with my lady  
Come and save me, come and save me

I canâ€™t stand to be with anyone else  
Canâ€™t stand it, canâ€™t stand it

To make a little love to you is all I ever really needed  
And I donâ€™t really wanna these girls, they only bring  
me down  
I wanna look into your eyes and find a way to stay  
forever  
Whatever, cause I canâ€™t stand to be with anyone else

I canâ€™t stand to be with anyone else

I can't stand to be with anyone else  
I can't stand to be with anyone else  
I can't stand it

To make a little love to you is all I ever really needed  
And I don't really wanna these girls, they only bring  
me down  
I wanna look into your eyes and find a way to stay  
forever  
Whatever, cause I can't stand to be with anyone else

To make a little love to you is all I ever really needed  
And I don't really wanna these girls, they only bring  
me down  
I wanna look into your eyes and find a way to stay  
forever  
Whatever, cause I can't stand to be with anyone else
