I was blessed
With an angel
But I kicked her to the floor

And it makes no sense
Little angel
Can I get you back once more?

It's chewing on my heart again
Make it stop, let's start again

If I could be somebody else
I'd be somebody you love
Give you every little bit of my heart
Stitch it when it's coming apart

You're somebody I love
You're somebody to me
But never was I ever enough
I just ride my chop to round the fact yea

Your somebody oh
Your somebody
Your somebody
Your somebody
Oh no

I'm a tidy mess in the backdoor
Now scratching at the door
Help me been hiding from rents
Train this animal
Teach me how to high the chords

It's chewing on my heart again
Make it stop, let's start again

If I could be somebody else
I'd be somebody you love
Give you every little bit of my heart
Stitch it when it's coming apart

You're somebody I love
You're somebody to me
But never was I ever enough
I just ride my chop to round the fact yea

Your somebody oh
Your somebody
Your somebody
Your somebody
Oh no

It's chewing on my heart again
Make it stop, let's start again

It's chewing on my heart again
Make it stop, let's start again

If I could be somebody else
I'd be somebody you love
Give you every little bit of my heart
Stitch it when it's coming apart

Cause You're somebody I love
You're somebody to me
But never was I ever enough
I just ride my chop to round the fact yea

Your somebody oh
Your somebody
Your somebody
Your somebody

Your somebody oh
Your somebody
Your somebody
Your somebody
Oh no
