"Just Friends"

Visit "[Just Friends](#)" on MotoLyrics.com

I took your pictures off the wall
To try and ease the pain
And there's nothing left
but the things you did, and the words you made me
say
Hangin out all day, "forever" we'd always say (stay)
In each others hearts, but now you're gone, and the
pain won't go away

So I'm leaving today
I'm never coming back again
I hope he understands the pain you'll put him through
The way you always do...

I thought about my days
And how nothing went my way
I think of yesterday
And tomorrow all that's left will be my name
I told you not to cry
"Forever" was not a lie. It was proved in the way I tried
But my heart is gone, and we never said goodbye

So I'm leaving today
I'm never coming back again
I hope he understand the pain you'll put him through
The way you always do...

So I'm leaving today
I'm never coming back again
I hope he understand the pain you'll put him through
The way you always do...
The way you always do...
The way you always do...
While I sit around...
The way you always do...

It's in the way we say goodbye
