You're like an angel  
Coming to my life  
Missing you now  
Missing you so much

You're like a fire  
Burning in my mind  
Missing you now  
Missing you so much

Missing you I am missing you  
I miss you all the time  
I need you now to look at me  
Look at me tonight!  
All the love you have for me  
I see it in your eyes  
It's all lies, lies, lies, lies

Oh love is all I need  
Oh love will set me free  
Oh you are on my mind  
Oh no more lies to find
