The way that you move  
The things that you do  
The way that you move  
The things that you do

I can't describe your effect on me  
Just how you get to me  
Oh how you turn me on  
You always know how to brighten days  
Chase the devil away  
With all the creatures you drew

They say that nothing lasts  
But I would spend my life alone if  
You should ever pass

The way that you move  
The things that you do  
The way that you move  
The things that you do

I can't describe what you do to me  
How you break through to me  
Through layers of darkness and shame  
If this simple song should stand for anything  
It's you give me everything  
Bleach out my soul's sadly stains

So let's use the night  
And tear a hole in their existence  
Girl we'll be all right  
Be all right  
We'll be all right
