

Measured In Grey "Hold Fast"

Visit "[Hold Fast](#)" on MotoLyrics.com

save me she writes/in the dust on the table
in the cracked window sunlight/
she tries, but its dark and getting darker all the time/
holdfast
this storm will pass and we can finally let it go
these waves came fast and i collapsed
and i forgot the way back home
hold fast
this storm will pass and we can finally let it go
these waves came quick and made us sick

and weve got so far to go.
hold me upright/ cuz im not feeling very stable/
and theres no sleep tonight/
im not feeling like im able/
its coming down
chorus.
hold me tonight
do you remember how we used to drink
all those nights
until we didnt have to feel,
it doesnt have to hurt to be real.
chorus.
