Oh wont you come and see the show
Lets get together and get below
And now you're back, I think it's great
Lets get together and celebrate
Oh baby, how does it feel
Oh tell me how does it feel
My sweet baby, how does it feel
Oh tell me how does it feel
And when we step into the night
Lets get together an make it right
And you still take my breath away
Lets get together and celebrate
Oh baby, how does it feel
Oh tell me how does it feel
My sweet baby, how does it feel
Oh tell me how does it feel
And if you don't know what to do
Oh come on over were missing you
And you still take my breath away
Lets get together and celebrate
Oh baby, how does it feel
Oh tell me how does it feel
My sweet baby, how does it feel
Oh tell me how does it feel
