Juliet, juliet
Where are you now
Could there be one more time, juliet
Juliet, it's hard to get
It seems so long
Since you came when I called, juliet

Stranded love
We used to be so high above
Hearts without sugar
Straded love
We used to be so high above
Hearts without sugar
Straded love

Straded love

Juliet, I regret
It took so long
When we faded away, juliet
Juliet, I forget
And days go by
And soon you'll be gone, juliet

Stranded love
We used to be so high above
Hearts without sugar
Straded love
We used to be so high above
Hearts without sugar
Straded love

Straded love

And I wake up
To the sound of dogs
And my make-up
Don't care for stranded love
And I break out
I reveal myself
For a new life

And to be high on love again

Stranded love

Stranded love
Hearts without sugar

Stranded love

Stranded love
Hearts without sugar

Stranded love
Yeah, yeah
Stranded love
Hearts without sugar

Stranded love
Yeah, yeah
Stranded love
Hearts without sugar

Stranded love
Yeah, yeah
Stranded love
Hearts without sugar

Stranded love
Yeah, yeah
Stranded love
Hearts without sugar
