So here we go
Still nothing has changed, the same shit again and
I don't want to know anything that you have got to say
So step up, step up I won't pull any punches
Shut the fuck up, you've ruined your chances
It's about time you hear what I gotta say
I never really gave a shit about you anyway

Left right and round and round
Here we go up down
Left right and round and round

So memorize, memorize my best disguise
I'll take it off, I'll take it off to confront your lies
You look at me, and now you see there's no feeling
Temporary hurt and permanent healing.
It's plain to see I ain't got you in the end
Well who cares? Who needs you? I got my friends
Through all of this they were the ones who kept me
high
Through all of this they were the ones that got me by
So now I'm glad, I say I'm glad that you've gone,
And what we've had it went on for too long
I realise right now what was really wrong
I realise you're just another bitch in a song.

So how's it feel to know it's coming to an end now?
No matter what you do, there's nothing you can do
about
It is over, you're a bitch, a liar
You're just a waste of time
So give it up, give it up I don't wanna know you
Time to let go, it's over, now we're through
Same old song and dance that we know
A few steps to take as we go:

Left right and round and round
Here we go, up down
Left right and round and round
Here we go.

I took it away, that hold you had on me

I took it away it's now gone
I took it away, that hold you had on me
Now I can see, That you're just a bitch
You're just another bitch in a song
