Walk along this broken road, better than the one you're told

I ain't gonna die inside, i got my lover and we're taking a ride

Ride on down the left hand path, trails of fire and smoking earth

I'll fight the world 'til I come through, got no fear, got nothing to lose

Black & blue, red on white, stains on my life

Rising up now, fight for your life

Black & blue, red on white, coming alive

Breaking through from all of the lies

Hate what you think I am, I'll use your hate to make you drown

coming down, that's no lie, from the ashes burn the sky  
burn the sky

Black & blue, red on white, stains on my life

Rising up now, fight for your life

Black & blue, red on white, coming alive

Breaking through from all of the lies

Every time you come over me i feel like i'm gonna die,

I never thought I'd see another bad moon rise

'Caus i've seen lust & i've seen fear all of my life...

Black & blue, red on white, stains on my life

Rising up now, fight for your life

Black & blue, red on white, coming alive

Breaking through from all of the lies
