You got that gravestone glare,  
Mercy's on your mind,  
My molten steel will sting you,  
Seer you inside,  
No you ain't moving man,  
I got you in chains,  
My lust is never ending,  
My touch is pain,

A voice begins to plead in your mind

When your tainted by the evil you have found,  
Lay it in, or lay it down,  
When your laying and your blood is all but bled,  
Pray for death, your left for dead,

I'm getting closer now,  
I'm nipping at your heels,  
I got it hard momma,  
This pains too real,  
Bloodbath, your howling now,  
Your seeing red,  
I'm rabid, one bad habit,  
You'll wind up dead,

A voice begins to plead in your mind

When your tainted by the evil you have found,  
Lay it in, or lay it down,  
When your laying and your blood is all but bled,  
Pray for death, your left for dead,

Pray for death your left for dead x4
