"In Love"

Visit "[In Love](#)" on MotoLyrics.com

I have got a lot to learn in love,
Be gentle with your touch,
Kiss me with closed eyes,
And trust I'm just as scared as you,
On what to do,

I have got a lot to learn in love,
And you're the one who sees me,
Please take the time and teach me how to build a world
of beauty just for two,
For me and you,

I have got a lot to learn in love,
And here I feel surrender,
From the cold and lonely rendered world that's crazy,
With no one to amaze me,
I keep to myself and I will NEVER be NEVER be hurt,

I have got a lot to learn in love
