She tries to please herself too much
And I said baby why be this way?
She tries to please herself too much
And then she wonders why she's so let down,
But I said baby take a look around,
It's a beautiful day,
We could go for a ride down to the beach,
But then she said she don't like it when the sand gets
on her feet,

She tries to please herself too much
And I said baby why be this way?
She tries to please herself too much
And I said baby just take a breath
Then she took the glass she's sippin on and tosses it at
my head
I put that in this song so I could use that effect

She tries to please herself too much
And I said baby why be this way?
She tries, She tries, She tries tries tries to please
herself
