

Miles Away "Reconcile"

Visit "[Reconcile](#)" on MotoLyrics.com

Time flies by but it gave us room
Room to move and space to breath
Didn't think that it would help
But I feel I've grown, I'm sure you have too
We're strangers leading seperate lives
How did we let it come to this?
Can't we find some common ground?
Communication breakdown
We just drift apart
Time, it can tie you down yet also set you free
At first I thought I could never forgive you
Feelings so overwhelming, saying goodbye
But I know we'll find our way again
Communication breakdown
We just drift apart
It's time to make a conscious effort
Tear down the walls between us
Repair the feelings we once knew
We can't let this all fall apart
We've got to reconcile
