Sink or Swim!
Drown in this life
Or search for some meaning
Drift with the tide
Are you gonna sit back betray your own feelings?
In a city where everyone knows your name
Hard to find the spark keep going strong
Gotta shut it all out break free of self doubt
Or just succumb to a miserable cycle
Just a clone a clone I don't wanna be
Fight the tide, the tide of narrow minds
Set adrift water logged gotta take control
Storms ahead, living in regret never helps your soul
Fucking make me whole
Sink or swim!
Get lost in the waves or take care of business
Drift with the tide
If I'm going under I'll fight for survival
I can't stand it, I won't fake it
I wanna walk in fields of gold
I can't stand it, I won't take this
Living life in a fucking sailors grave
