My time, you wasted my time  
Fuelled by you so out of reach  
Yet always on my mind  
Satisfaction I just can't find  
I turned to you  
I won't dwell on you  
I won't waste my time  
You threw it back  
Back in my face  
That's up to you, you made the choice  
Please don't lead me on  
I know your games  
I won't dwell on you  
I won't waste my time  
No I won't dwell on you, won't waste my time  
You never thought of me  
You wasted my time and that time I just can't get back  
No I won't ever dwell on you
