I can't work out this funny feeling
I keep on thinking what's it mean
Is it you
Is it you and the things that you do

Summer sun shines through my window
I want it, hm, I don't know why
Is it you
Is it you and the things that you do

Hey look now I have thought this through
The thing that makes me smile is you
You make me feel so ooh oh
I sing doo

Do do do do do do do doo

I'm feeling blue but I know it's alright
And I feel safe
Do you know why
Is it you
Is it you and the things that you do

Girls explain just how they're feeling
Although I try I just can't here, is it you
Is it you and the things that you do

Hey look now I have thought this through
The thing that makes me smile is you
You make me feel so ooh oh
I sing doo

(Hums)

Hey look now I have thought this through
The thing that makes me smile is you
You make me feel so ooh oh
I sing doo

Do do do do do do do doo
