Hey there u boy i've done had it with this
All day i've been watching your ways
It seems when the ladies walk by
Ur head can't keep from turning see finally im learnin
Oh no way not me i'm not havin that there
I see soon we'll be headin our own ways
There's no explanation for me
Cause u can't be huggin on me when ur eyes are
across the street oh

CHORUS

I could care less in how hard it may be
Your eyes better not wander while you're walking next
to me
If she's so fine then that's where you should be
Your eyes better not wander while your walking next to
me, oh

Ok, that's it, im not feeling like this
I see, im just cramping, your style
Boy don't you walk faster than me
Lemme holla at cha later
I refuse to be a hater
Go head, get that, u go kick it with her
Don't trip, im gonna find me a, new friend
It's so disrespectful to me
When you're hangin out with me, but your eyes are
across the street, oh

CHORUS (REPEAT)

Don't go let em wander wander wander wander wander

CHORUS (REPEAT TO FADE)
