I belong to her and you belong to him
We keep on playing a game, we'll never win
We gotta stop before the hurt begins
What we had, we'll always treasure
Believe me it's not easy letting go
We gotta be strong and admit we were wrong
Now we know what we gotta say, why we still can walk
away
REFRAIN:
Let's stop before we fall in love
Let's end before the smoke turns to a flame
Less than a game
Let's stop before the pleasure turns to pain
No reason to explain
Let's stop before we fall in love.
So let's leave it with a memory
Two ships that passed in the night
You go your way and I'll go mine
Coz I know that could never be
Anyone else but her for me.
(REPEAT REFRAIN)
