Heavy bricks with weight of sorrow
In my heart I feel tomorrow
Ends in desperate conversations
I'm so sick of situations

You tried to bend my life your way
Your games, your rules, I had to play
Don't you underestimate me
You're the one who lost against me

Did you know that you always did as I,
As I please
Did you know that you always followed my,
My believes

Now I see you down on your knees
Don't expect a hand, if you plead
I don't see no sympathy, no
I wont go,
Turn around and leave

Far away where I can't see you
Out of my life, I don't have to
Be a part of your desire
Shut the fuck up, I am tired
