Cover eyes with Fingers
What filter sin through holes
Is another World
A second, a third

Give me your hand
I can show you a brand new land
It's all in me
And it's in you as well
Just dig down deeper
You'll find a world more real

Narrow Your eyes
Or look through the key hole
Can you see it now
Do you know how

Give me your hand
I can show you a brand new land
It's all in me
And it's in you as well
Just dig down deeper
You'll find a world more real
