

Neo "Endless Roads"

Visit "[Endless Roads](#)" on MotoLyrics.com

Better off alone
Start to break the seal
Machine crossed the soul
Passion passed the real

My mind tells more & more to me
I can see endless roads & a quiet sea

Again I like a train of thought
& disappear the moment
The lighting strikes

& then I'm stepping through a door
Again with God I start to fall in love

I must find a place
Where they don't tell brave cliches
Where I enjoy what I taste
& the smell of rose awakes

I set my feet on a distant field
The green grass moves right under me
