i can't take the cold out here
i can't take that when it rains it isolates
me from everywhere and everyone and everything that
i
wanna be close to OOooOO

i can' take that god damn snow
every time it goes away it comes back with
more you know i know you know you know you know the
snowflakes
are only for show uhohoh

and WHUH OH oh what can i say
all i'm trying to do here's to get it to get it through my
head
i don't like snowflakes cuz snowflakes are fake
snowflakes are fake they're just for looks

when the world turns cold outside
they all come in a hurry to say hello
i'd rather say farewell to you
i'll be happy when the spring brings everything to life

well how are you girl today
i swear i don't mean to bring you down when i
say you can't go out on the account
of the blizzard that's keeping you shutting you inside

i won't tell you my appeal
cuz i'm thinking that i don't know uhOHoh
what to do it won't come true we've got the
winter blues and we've got no cure

and WHUH OH oh what can i say
all i'm trying to do here's to get it to get it through my
head
i don't like snowflakes cuz snowflakes are fake
snowflakes are fake they're just for looks
