

Oh No Scenario "What Would You Say To Me"

Visit "[What Would You Say To Me](#)" on MotoLyrics.com

Hey I think if you should say to me
That you wanted me to breathe easy
I think that I would

And if you came to me to see to see if
I should just think deeply
You'd be understood

So now I'm thinking about thinking about you
I might just ask you a question or two
Now I'm trying to figure it out figure it out in my mind
I've got to get this out right

Say I asked you very nicely to get up early in the
morning
You could come over and sit around just sit around
I know it might be boring so very early in the morning
But it would be worth your time girl I swear I'd make it
worth your while
What would you say to me

She blew me a kiss and took away my troubles
It went something like this whoa oo oh
And she's so spontaneous she'll do it quick on the
double
She keeps me guessing all the time

So now I'm thinking about thinking about you
I might just ask you a question or two
Now I'm trying to figure it out figure it out in my mind
I've got to get this out right

Say I asked you very nicely to get up early in the
morning
You could come over and sit around just sit around
I know it might be boring so very early in the morning
But it would be worth your time girl I swear I'd make it
worth your while
What would you say to me
