OH, this feeling takes my mind await, to a dark place  
I hope to see the light again, someone help me  
I need your hands to reach out for me, I'm descending  
This tension is eating away at my dreams, dragging  
my casket!

OH, I'm blinded by conspiracy, so I question  
Contradictions plague my mind, always guessing  
I'm caught underneath all the agony, I'm descending  
This tension is eating away at my dreams, dragging  
my casket!

Digging my grave, who's going to save me  
Burnt by the fire, stole my desire  
Holding me down, who's going to save me  
Embracing my pain, no one will save me  
I'm dragging my casket down!

Shovel the earth upon my dreams  
Nothing is ever what it seems  
Diluted illusions reality  
Buried ambitions, they've died!

Dragging my casket... Down  
No one can save me... Now  
Stealing my life force  
Their holding and choking me out  
No one will save us... Now  
Dragging my casket
